Application No.: 10/537,320 Filing Date: June 2, 2005

AMENDMENTS TO THE CLAIMS

1-6. (Canceled)

7. (Currently amended) A method for inhibiting elongation of melanocytic dendrites comprising:

a step of applying <u>Centaureidina compound</u> represented by the following general-formula (1) and/or a salt thereof to the skin of an individual in need thereof, whereby elongation of melanocytic dendrites is inhibited:

$$\begin{array}{c} \text{OH} \\ \text{OCH}_3 \\ \text{CH}_3 \\ \text{OH} \\ \text{O} \\ \text{OH} \\ \text{O} \\ \text{O} \\ \text{OR}_3 \\ \text{O} \\ \text{OR}_3 \\ \text{O} \\ \text{OR}_4 \\ \text{OR}_4 \\ \text{OR}_4 \\ \text{OR}_5 \\ \text{OR}_6 \\ \text{OR}_6 \\ \text{OR}_6 \\ \text{OR}_6 \\ \text{OR}_7 \\ \text{OR}_8 \\$$

formula (1)

wherein R_1 , R_2 , R_3 , R_4 , R_5 , and R_6 each independently represent a hydrogen atom or a C_{1-4} alkyl group.

8. (Cancelled)

9. (Currently amended) The method for inhibiting elongation of melanocytic dendrites according to claim 7-or 8, wherein the skin has dyschromatosis on which tyrosinase inhibitors have insufficient effect.

10-11. (Canceled)

Application No.: 10/537,320 Filing Date: June 2, 2005

12. (Currently amended) A method for inhibiting elongation of melanocytic dendrites comprising applying a skin preparation for external use comprising 0.005 to 5% by weight of Centaureidina compound represented by the following general formula (1) and/or a salt thereof to an individual in need thereof, whereby elongation of melanocytic dendrites is inhibited:

$$\begin{array}{c} \text{OH} \\ \text{OCH}_3 \\ \text{CH}_3 \\ \text{OH} \\ \text{O} \\ \text{OH} \\ \text{O} \\ \text{OCH}_3 \\ \text{OCH}_3 \\ \text{OR}_3 \\ \text{O} \\ \text{OR}_3 \\ \text{O} \\ \text{OR}_4 \\ \text{OR}_4 \\ \text{OR}_4 \\ \text{OR}_5 \\ \text{OR}_6 \\ \text{OR}_6 \\ \text{OR}_6 \\ \text{OR}_7 \\ \text{OR}_8 \\ \text{OR$$

formula (1)

wherein R₁, R₂, R₃, R₄, R₅, and R₆ each independently represent a hydrogen atom or a C₁-4-alkyl group.

13. (Previously presented) The method for inhibiting elongation of melanocytic dendrites according to claim 12, wherein the skin preparation for external use is a cosmetic.
